

optomap[®]

Retinal Exam

At **Eye Care Services** we pride ourselves on providing our patients with the best possible standard of care. **Because of this we recommend the optomap[®] Retinal Exam for all of our patients.** This non-invasive procedure allows your doctor to see a much broader and more detailed view of the retina than is possible with conventional methods. When reviewed, the scan becomes a permanent part of your medical file, enabling your doctor to make important comparisons should potential vision threatening conditions show themselves at a future examination. **The Doctor's strongly believes that the optomap[®] Retinal Exam is an essential part of your comprehensive eye exam and prescribes it for all patients once per year.**

As part of your pre-test work up we have captured **optomap[®]** images for review with your Doctor during your examination today. The \$29.00 fee for this procedure is generally a non-covered service unless being used to actively follow disease. Any questions you have about the **optomap[®]** Retinal Exam can be directed to your Doctor when he reviews the images with you during your examination.
